The Backpacker Guide

Part of the appeal of backpacking is that you can just 'up and go' as you are your own master. A campervan compliments that appeal perfectly, allowing you to travel Australia at your leisure, without a care for anything else. A campervan holiday is a way not just to see Australia, but to experience it too. See all the big tourist attractions, but also see the hidden treasures in between.

Travelling in a Campervan is like a 'home on wheels'. Depending on the vehicle you choose, you will have the ability to cook in your own kitchen, store your food and clothes in the cupboards and sleep in your own bedroom. All with the added benefit of being mobile whenever it suits you.

Campervan Hire vs. Public Transport & Hostels

The hardest part of being a backpacker is finding out the best & most affordable way to travel and where to lay your head at night. Although buying a flight, bus or train ticket or staying in a bunk bed at a hostel may look cheaper at first, there are many benefits to hiring a campervan.

- You only have to unpack your backpack once
- There is no need for checking in and retrieving your luggage
- It is definitely more scenic to travel by road
- No requirement for transfers to/from airports or hostels
- The greater choice of where to visit by taking the tourist route.
- You are not constrained by a timetable or schedule.
- Discount booklets for attractions are given at time of pick up.
- Adequate room to store your food and not having to carry it in your backpack
- Exclusive access to your own kitchen & fridge
- Experience driving in another country
- The freedom to stop and take a break wherever you choose (just because it looks nice or there is a photo opportunity)
- Make friends with other camper travellers along the way, gain advice on what to see and where to stop.

Drivers License Requirements

A driver's license is required for renting a campervan in Australia. Drivers must be aged between 18 and 75 years of age and hold a non provisional drivers license. Interstate, Overseas or International licenses are acceptable; however the license must be in English.
